MEMORANDUM TO: [REDACTED]

Subject: G-2 Reserve on NSCID 7

Mr. Roy Tod of G-2 on 19 January informed me that G-2 will make the following reservation in regard to NSCID 7. They propose to delete the last five words and substitute the following:

~ P3 (6)

"and formulate, revise and recommend for consideration by the IAC, policy in connection with the implementation and operation of this program."

Col. Ennis has been instrumental in securing this reserve position on the part of G-2. He states that the precedent for the establishment of a committee with such powers is contained in the NSCID concerning N.I.S.
